

COMMUNITY GROUP LEADER

Worship Help

The goal for each Community Group is to find its *own* voice regarding worship. Worship is first and foremost a reflection of the position of our hearts before God. In that sense everything we do is related to worship. Groups should begin thinking creatively regarding worship during their meetings. Leaders are encouraged to find new ways to worship God that reflect the unique characteristics and personality of the Community Group they serve.

Below are a few examples of how multimedia or live music can be used to help facilitate worship experiences. While these are great options please be encouraged to think beyond them.

[YouTube](#) or [GodTube](#) are user-friendly options for creating worship sets.

- **What to do:** Create a free account; search the site for your favorite worship songs (many songs have the words displayed); create a Playlist for your Group
- **What you'll need:** Internet access; an HDMI cable (if you want to connect your laptop to a flat screen TV)
- **For example:** Here is a playlist made on YouTube
 1. [Build Your Kingdom Here – Rend Collective Experiment](#)
 2. [Whom Shall I Fear \(God Of Angel Armies\) – Chris Tomlin](#)
 3. [How He Loves – David Crowder](#)

If printed words are desired for music other than what is distributed by Worship it will be the responsibility of Group leaders to provide lyrics for any songs in appliance with CCLI regulations (simply visit ccli.com – click on SongSelect tab – enter username “127308” and password “ccworship” – search for song lyrics and print).

Live Music is a great worship option:

- **What to do:** If a member of your group has musical talent encourage them to play or sing
- **What you'll need:** An instrument and a few songs are perfect for creating intimate moments of worship

If you have any questions regarding worship contact Pastor Tony Martelle via [email](#) or phone at 757.405.6000.
